WINNIPEG, Sept. 19.—Commissioners of Manitoba are having a detrimental effect on the crops, but the weather is so bad that it will be impossible for farmers to plant them again. The winds have blown away the stocks of grain are wasted.

Professor E. A. Bedford, administrator of the new forest and mines act, has returned from Europe and has reported to the commissioners that it will be impossible for farmers to plant them again.

Mr. Bedford said that the crops have been threshed.

The report states that the government's limit of their expenditure for the purpose of disarmament is \$100,000,000, and the amount of this year's budget is \$100,000,000, so that the league's contribution of troops asked by the league should not be included.

New Zealand, India and Italy accepted it with the understanding that the budget must be accepted by all others.

It is the opinion of the league that the amount of the budget should be increased to \$150,000,000.

## LEAGUE OF NATIONS THINKS WASHINGTON IN BEST POSITION

FEAR THAT CONFERENCE IN UNITED STATES CAPITAL CAN COME INTO AGREEMENT WITH GREAT POWERS WITH LEAST FRICTION—FALL REPORT HAS BEEN ISSUED FROM GENEVA

GENEVA, Sept. 19.—The commission on disarmament of the League of Nations has issued its fall report issued today finds that the Washington conference can better deal with the question of naval disarmament than the League, and that it can be more effectively secured by common agreement among the great powers.

The discussion of this subject by the assembly commission thus far is in line with this conclusion, involving a slow but sure policy.

With regard to land armaments, it also appears that the same will be up before the assembly on that basis.

"Mankind is still too far removed from the ideals of peace to make possible at present the solution of the question of disarmament," is the final conclusion of the council.

The report states that the government's limit of their expenditure for the purpose of disarmament is \$100,000,000, and the amount of this year's budget is \$100,000,000, so that the league's contribution of troops asked by the league should not be included.
